

ADVENTURE PLUS PROGRAM

2017/18

A program of 'Big Trip' options incorporating the renowned Tertiary/Vocational Outdoor Education course and Certificate II in Outdoor Recreation – for students who are deeply interested in adventure activities and the natural environment. An enrichment and extension program in Outdoor Education.

Snowboarding and skiing Japan

Niseko Summer school program - 10 days in late January 2018

Barrier Reef Scuba and Snorkelling

A week of marine studies, snorkelling on Lady Musgrave Island – pristine coral reef – turtles, whales and more (approx. \$1100, annually)

Odyssey

10 days high adventure multi-sport caving, abseiling, hiking, white water rafting and more... (approx. \$400)

Rock Climbing Arapiles

5 days climbing the best in Australia (approx. \$250, every 2 years)

Caving the Nullabor Plains September 2018

World renowned cave systems (approx. \$800)

Plus the regular trips:

Diving and snorkelling - Jervis Bay, south coast
Backcountry skiing
Hiking - Snowy Mountains, Budawangs
Canoeing and kayaking
Mountain biking

Climbing - Blue Mountains, ACT, Nowra etc.
Snowboarding and skiing - Perisher
Caving - Bungonia, Wee Jasper
Big Hole single rope techniques,
Snow camp

Selection for these trips is based upon an application, participation in classes and on other trips and an interview with the student and a parent.

Flexible scheduling minimises impact upon other studies.

All major trip options are integrated into the Outdoor Education T course and can count towards the student's ATAR.

Why?

- **Professional qualification in a rapidly expanding profession**
- **Makes college study exciting – excellent for overall motivation**
- **High powered professional skills training – leadership, teamwork, time management, decision making, risk management, vocational skills, interpersonal skills**
- **ATAR score for university entry**
